Letter from the Director

As 2023 comes to a close, the Oregon Park District is excited to look towards 2024 and the many exciting opportunities ahead. In preparation for 2024, staff will begin to roll out the 2024-2027 strategic plan. Our team has developed and approved a new Strategic Plan, accompanied by an updated Mission, Vision and Values. Throughout this process, our passionate staff worked together to identify our current culture and the values we plan to pass along to our community. Together, with an impressive range of skillsets, our team is driven to deliver meaningful recreation experiences and events to our patrons which exhibit our abilities to be caring, creative and community-focused.

Other exciting opportunities are also on the horizon. The District applied for an Open Space Land Acquisition and Development (OSLAD) Grant in 2023 to assist with park improvements at Park East. We expect to be notified in January if we receive this important funding. If approved, the OSLAD program would provide up to \$600,000 in grant funding for Park East.

Engineering work will continue in 2024 to complete the bike path connecting Route 64 to Lowden State Park. The District has been awarded \$3,000,000 in Illinois Transportation Enhancement Funds to complete the bike path and connect our community with one of our beloved State Parks. Keep an eye out for construction to begin in 2025.

I am pleased to report the District continues to be fiscally responsible and will exceed our year end fund balance goals. This is achieved year after year through a well thought out tax levy, careful consideration for our expected expenses, a rolling capital improvement plan and proper long-range planning.

Lastly, a special thank you to the Oregon Park District team. Our community is truly blessed to be served by an amazing group who are caring, creative and community-focused. Collectively, our team has served more than 17,000 program participants, 49,000 facility users and tens of thousands of park visitors in 2023.

I look forward to our continued success in 2024 and invite you to join us on our journey to bring you caring, creative and community-focused opportunities.

Sincerely,
Erin Folk
Executive Director

Catch the Wave Swim Club structures the program to provide much more than just swimming lessons. Our curriculum, teacher training, evaluation system, and parent communication are all designed to provide a total Aquatic Education. Our primary technique to achieve water safety is to teach all students to comfortably live in the water. When a student truly learns to live in the water, the strokes come easily. We find that when a child enjoys the lessons, the more successful the learning process is. Therefore, our priority is to create a happy atmosphere.

Small class sizes • Professionally trained teachers
Consistent, year-round approach • Private swim lessons available
Flexible scheduling & make up classes offered

Penguin Babies

Parent participation is required in the water. Class focus is on water acclimation, submersion, back floating, & independence in the water.

High quality habitat is critical for wildlife conservation. Many habitats once common in Illinois are now rare, and that includes the wildlife that calls it home. The Nachusa Grasslands preserves and maintains 4,000 acres of habitat, including 700 plant species, 180 bird species, 30 reptile and amphibian species, and a herd of bison. We will meet at Nash Recreation Center and take a Park District Van to the grasslands, where we will explore oak savanna and prairie areas on foot with Nature Conservancy staff. Learn about how these restored habitats are established and maintained with a chance to see wildlife challenging to find in other parts of the state. We will also take a short ride through a portion of the bison enclosure for a chance to view the herd. Morning session will include a longer and more strenuous hike.
