## Letter from the Director

Oregon Park District Residents,

We are excited to share that construction is officially underway at Park East! This major redevelopment project began on April 1 and is scheduled to conclude by August 15, 2025. While construction may temporarily impact park access, we are confident the improvements will be well worth the wait.

The enhancements at Park East include:

- A brand-new playground with an artificial turf surface for improved accessibility and separated 2-5 yr and 5-12 yr play spaces
- A new baseball field with lights
- A disc golf course
- A walking trail
- A basketball court
- A new parking lot
- ADA improvements throughout the park

This exciting project is made possible by a \$600,000 grant from the Illinois Department of Natural Resources, with matching funds provided by the Oregon Park District. As part of the playground installation, the existing equipment was removed by Kids Around the World and repurposed in a country where access to playgrounds is limited – allowing us to give back even as we build for the future.

Throughout the construction period, our staff has worked diligently with partners like the Chana School Museum and Ganymedes Baseball Program to minimize disruptions to their programming.

As we look ahead to a great summer, we also invite you to explore the exciting programs featured in our Summer Program Guide!

Highlights include:

- Pop Up and Play, beginning May 27
- Joe Kerwin Baseball & Softball Celebration on May 31
- Art in the Park, launching June 4
- Our always-popular Concert Series, starting June 17 at Park West

Thank you for your continued support as we invest in the future of our parks and create inclusive, vibrant spaces for our community to enjoy.

Warm Regards,

Erin Folk, Executive Director

Catch the Wave Swim Club structures the program to provide much more than just swimming lessons. Our curriculum, teacher training, evaluation system, and parent communication are all designed to provide a total Aquatic Education. Our primary technique to achieve water safety is to teach all students to comfortably live in the water. When a student truly learns to live in the water, the strokes come easily. We find that when a child enjoys the lessons, the more successful the learning process is. Therefore, our priority is to create a happy atmosphere.

**Small class sizes • Professionally trained teachers**  
**Consistent, year-round approach • Private swim lessons available**  
**Flexible scheduling & make-up classes offered**

## **Penguin Babies**

Parent participation is required in the water. Class focus is on water acclimation, submersion, back floating, & independence in the water.

## **Little Learners**

Student focus is on overcoming anxieties associated with the water and parent separation along with introductory back float techniques.

## **Intermediate**

Student focus is on self-rescue foundations through proper stroke and breathing techniques.

## **Advanced**

Student focus is on advanced freestyle and backstroke training with a strong emphasis on kicking & body position.

## **Elite**

Elite is considered our pre-team level. Students focus on swimming efficiency through distance training and coordinating stroke movements.
